Microsoft Word

A professional-grade text editing app for formatting and refining documents. Presents a comprehensive set of tools for handling text elements, styles, images, tables, and footnotes. Allows for real-time teamwork and offers ready templates for rapid onboarding. With Word, creating a document is simple—start from zero or select a pre-designed template from the options, spanning from résumés and letters to formal reports and event invites. Adjusting typography, paragraph layouts, indents, line spacing, lists, headers, and style schemes, supports the development of clear and professional documentation.

Power BI

Microsoft's Power BI provides a powerful environment for business analytics and data presentation created to facilitate turning unorganized information into visual, interactive dashboards and reports. The instrument is tailored for analysts and data specialists and for regular users who need easy-to-understand tools for analysis without deep technical knowledge. Publishing reports is made simple by the Power BI Service cloud platform, refreshed and available worldwide on various gadgets.

Microsoft Excel

Microsoft Excel is a highly effective and versatile program for managing quantitative and tabular data. Used internationally, it supports reporting, data analysis, forecasting, and visualization of data. With numerous features—from basic calculations to sophisticated formulas and automation—for daily tasks and high-level analysis in business, science, and education, Excel is an excellent tool. This software allows for quick creation and editing of spreadsheets, format the data according to specified criteria, and perform sorting and filtering.

Microsoft Publisher

Microsoft Publisher offers an intuitive and affordable desktop publishing experience, specialized in designing professional print and digital materials no need to rely on advanced graphic programs. Unlike standard word processing applications, publisher provides a broader range of options for element positioning and aesthetic customization. The application provides a diverse set of pre-designed templates and adaptable layout options, which make it easy for users to start working fast without design knowledge.
