- **Disk space:** 64 GB for patching

Microsoft Office is the ultimate suite for work, learning, and creating.

Among office suites, Microsoft Office is one of the most favored and reliable options, equipped with everything required for productive work with documents, spreadsheets, presentations, and additional tools. Suitable for both technical tasks and casual daily activities – when you're at home, attending school, or at your workplace.

What is offered in the Microsoft Office package?

Microsoft OneNote

Microsoft OneNote is a software-based notebook created for rapid and user-friendly gathering, storing, and organizing of thoughts, notes, and ideas. It combines the ease of use of a notebook with the advanced functionalities of contemporary software: you can enter text, add images, audio clips, links, and tables here. OneNote is highly suitable for personal organization, learning, professional work, and teamwork. By connecting to the Microsoft 365 cloud, all data automatically updates across devices, facilitating seamless data access across all devices and times, whether on a computer, tablet, or smartphone.

Microsoft PowerPoint

Microsoft PowerPoint is a popular presentation software recognized worldwide, balancing user-friendliness with sophisticated features for professional content creation. PowerPoint suits both new users and experienced users, active in the professional areas of business, education, marketing, or creativity. The software presents a comprehensive suite of tools for inserting and editing. text, images, tables, charts, icons, and videos, for developing transitions and animations.
