Microsoft Office is a dynamic suite for work, education, and artistic projects.

Microsoft Office is considered one of the most prominent and dependable office solutions globally, equipped with all the necessary resources for smooth handling of documents, spreadsheets, presentations, and additional tasks. It is ideal for both professional work and daily activities – whether you're at home, in class, or at your job.

What software is included in Microsoft Office?

Microsoft OneNote

Microsoft OneNote is an electronic notebook created to help users quickly gather, store, and organize thoughts, notes, and ideas. It offers the flexibility of a traditional notebook along with the benefits of modern software: this space allows you to write text, upload images, audio files, links, and tables. OneNote is adapted for personal use, studying, professional tasks, and group collaborations. Utilizing Microsoft 365 cloud integration, all entries are automatically synced between devices, granting universal access to data, anytime and anywhere, whether on a computer, tablet, or smartphone.

Microsoft Word

An advanced text editing tool for drafting, modifying, and styling documents. Presents a broad spectrum of tools for managing text blocks, styles, images, tables, and footnotes. Enables live collaboration and includes templates for a swift start. Word simplifies document creation, whether starting from zero or using one of the many templates, from job applications and letters to detailed reports and invitations. Personalizing typography, paragraph layouts, indents, line spacing, list styles, headings, and style settings, assists in making documents both legible and professional.
