## Microsoft Office is a leading software suite for work, learning, and creative tasks.

Across the world, Microsoft Office is known as a leading and reliable office productivity suite, offering everything necessary for proficient handling of documents, spreadsheets, presentations, and much more. Suitable for both expert use and everyday tasks – while at home, school, or your place of employment.

### What programs come with Microsoft Office?

## Skype for Business

Skype for Business is an enterprise platform for digital communication and teamwork, uniting instant messaging, voice and video communication, conference features, and file sharing as a component of one safe solution. Tailored for the business environment, as an extension of Skype, this system was designed to give companies tools for effective communication internally and externally with consideration for corporate security, management, and integration policies relating to other IT systems.

## Microsoft OneNote

Microsoft OneNote is an electronic notebook created to quickly and conveniently gather, keep, and organize all kinds of thoughts, notes, and ideas. It fuses the traditional feel of a notebook with the technological advantages of modern software: here, you can write text, insert images, audio files, links, and tables. OneNote is a flexible tool for personal notes, academic work, office tasks, and shared projects. When connected to Microsoft 365 cloud, all records automatically sync across your devices, supporting access to data from any device at any time, whether it's a computer, tablet, or smartphone.

## Microsoft Publisher

Microsoft Publisher offers an affordable, intuitive solution for desktop page design, focused on delivering high-standard printed and digital outputs there's no need for sophisticated graphic tools. Unlike traditional text editors, publisher enables more accurate element placement and enhanced design capabilities. The tool features a wide range of ready-made templates and configurable layout designs, allowing rapid start for users without design experience.

## Microsoft Teams

Microsoft Teams is a multifunctional environment for chatting, working together, and video conferencing, made as a universal platform for teams of any size. She has become an integral element of the Microsoft 365 ecosystem, providing a workspace that includes chats, calls, meetings, file exchanges, and integrations with external services. Teams' main purpose is to provide users with a consolidated digital hub, a space to discuss, coordinate, hold meetings, and edit documents collaboratively, all inside the app.

- License file generator based on system fingerprint
