Morgan Yu awakens aboard an infested, hyper-luxurious space station orbiting the moon to find a scientific experiment completely gone wrong. Adapt your survival playstyle by harvesting alien Neuromods to unlock spatial telekinesis, cognitive hacking skills, and physical shape-shifting Mimic abilities. Scavenge raw materials to construct specialized weapon gadgets like the GLOO Cannon, which freezes hostile shape-shifting Typhon predators in place. Arkane Studios delivers an exceptional immersive sim experience filled with rich environmental storytelling, alternative history lore, and vast systemic player freedom.
