Recuva is a Windows-based file recovery tool that restores deleted files from hard drives, USB drives, and memory cards. Able to recover files from FAT, exFAT, NTFS, and Ext systems, while keeping the folder structure intact. Recuva offers the ability to preview images, filter by file type, and perform deep scans for more complex recoveries. Comes in both free and Pro versions, offering virtual drive support and automatic updates. Easy to use, effective, and fast for recovering deleted files, with a lightweight design.
